

RACE. CREATE. COMPETE.

ARCADE RACING IN DECENTRALAND

Community-built tracks. A season you can wear.

THE PLAYER EXPERIENCE

EASY TO START. HARD TO MASTER.

Equal car performance. Skill decides. Wearables stay cosmetic.

01
FIND YOUR LINE
Brake, turn and carry speed through the corner.

02
MANAGE CHARGE
Spend it on boost or save it to correct a jump.

03
TAKE THE LEAP
Use thrusters, air rolls and inverted sections.

PRACTICE → COMPETE → PROGRESS → EQUIP → SHARE

WASD	W W	SPACE	E	F
Drive	Boost	Thrusters	Air roll	Respawn

IN-WORLD EDITOR VISION

BUILD YOUR RACE. PIECE BY PIECE.

Choose a module, snap its connectors and shape a circuit inside Decentraland.

01

ASSEMBLE

Straights, curves and slopes.
Move, duplicate and rotate in X / Y / Z.

02

MAKE IT YOURS

Add matching barriers, scenery, checkpoints and charge pads.

03

DRIVE & PUBLISH

Check joints and safe respawns.
Complete a server-validated lap.

PICK PIECES → SNAP & ROTATE → DECORATE → DRIVE & CHECK → PUBLISH

Save drafts and undo changes. Published versions stay locked; ranked uses curated tracks.

Publication and server-validated creator runs are proposed features, not a release claim.

THE COMPETITION / RANKED

A REASON TO COME BACK EVERY DAY.

Asynchronous races against recorded benchmarks, even for the very first player.

3	1-4	12
DAILY TRACKS	POINTS PER TRACK	DAILY POINT CAP

42-DAY SEASON

Your best result on each daily track earns points.
Improving it awards only the difference.
Cumulative season points, with no demotion in S01.

No car-to-car collisions. Server validation of times and checkpoints. Initial benchmarks are labeled as game reference times.

THE COMPETITION / COMMUNITY EVENTS

YOUR COMMUNITY. YOUR TOURNAMENT.

Choose the tracks, dates, laps and who gets to join.

01

SET THE EVENT

Pick 1-5 tracks.
Public or invite-only access.

02

RACE ON YOUR TIME

Asynchronous time trials.
Your best valid run counts.

03

CLIMB THE TABLE

Lowest combined best times win.
Clear rules and locked track versions.

COMMUNITY EVENTS, BUILT ON COMMUNITY TRACKS

Initial tournament format is proposed. Event prizes are separate from ranked season rewards.

THE REWARDS

SCOPE & PRODUCTION

MAKE IT PLAYABLE. THEN MAKE IT SHAREABLE.

THE FOUNDATION

Driving and the existing tracks.
A local modular editor prototype.

THE NEXT PLAYTEST

Produce the new 3D modules.
Validate joints, adhesion and collisions.

THE COMMUNITY LAYER

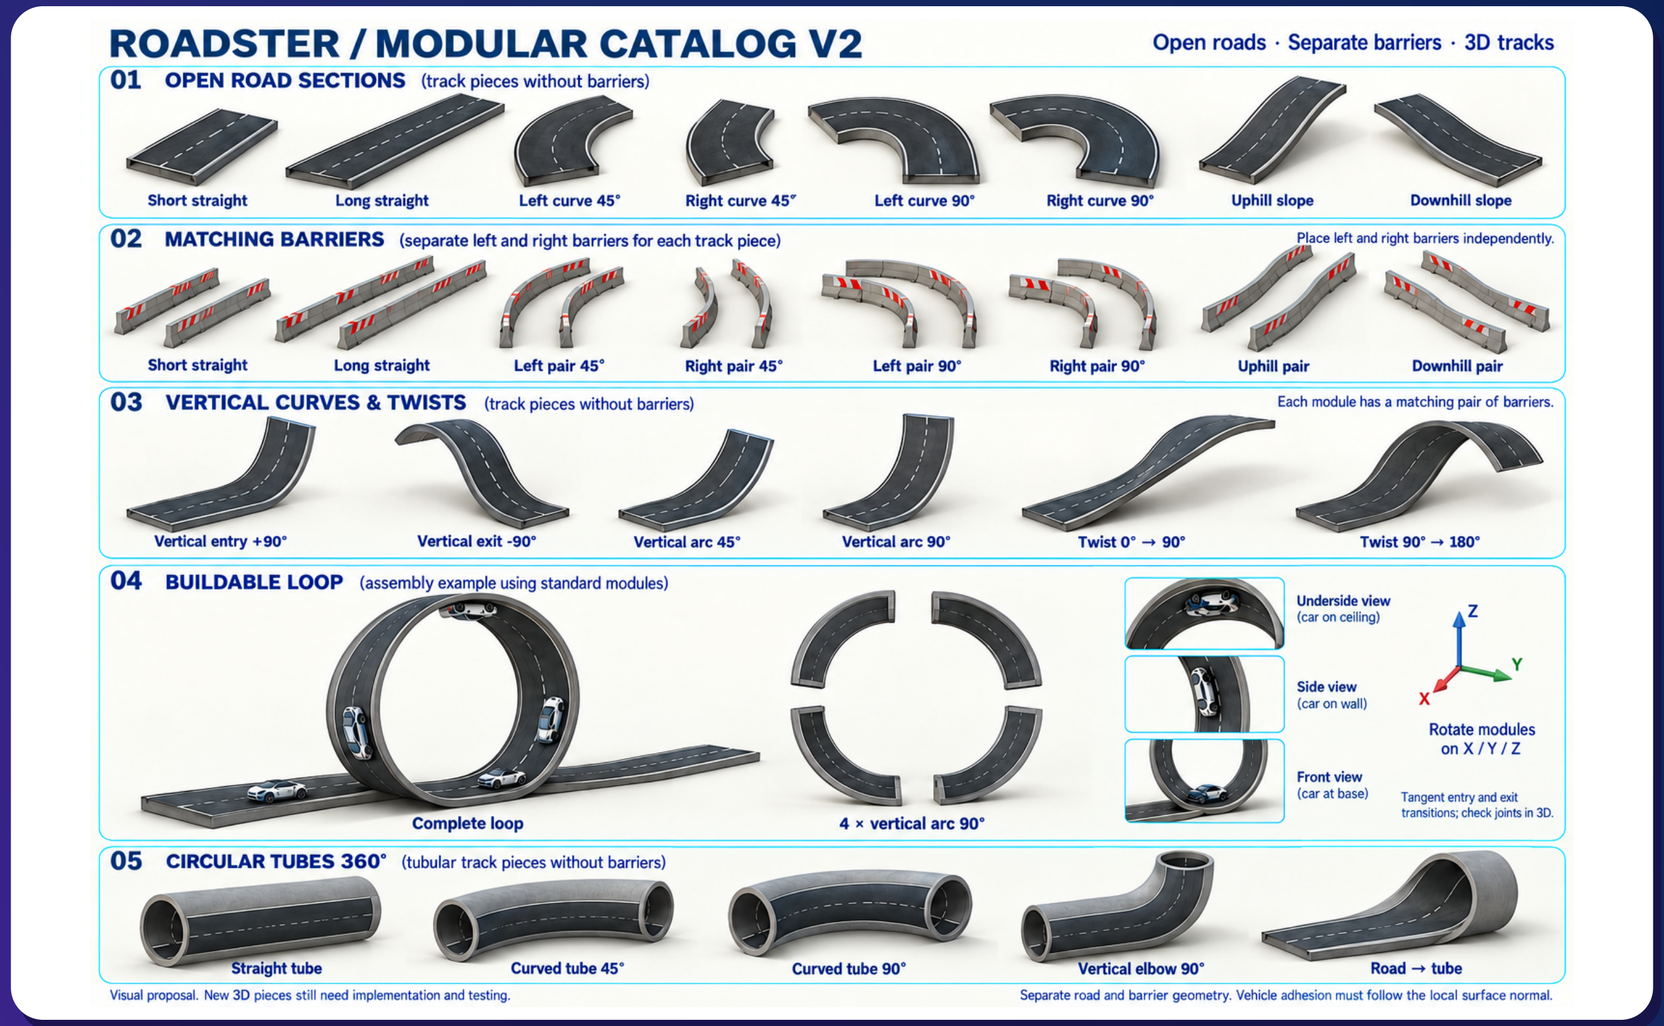

Shared tracks, curated ranked,
tournaments and season rewards.

ONE VERSION. MATCHING GEOMETRY. A VALID LAP.

Versioned pieces and transforms keep client and server aligned. New track geometry and the environment kit remain visual concepts until modeled and tested.
